# How to use this map

To begin, please review the Welcome and data disclaimer pop up. Close the pop up by clicking on the "X" in the top right corner.

Search :

1. Locate your area of interest by first zooming in to the specific location, or use the search box, located at the top right, and enter a valid street address, Benton County map and tax lot number, or a Corvallis Historic District Name.
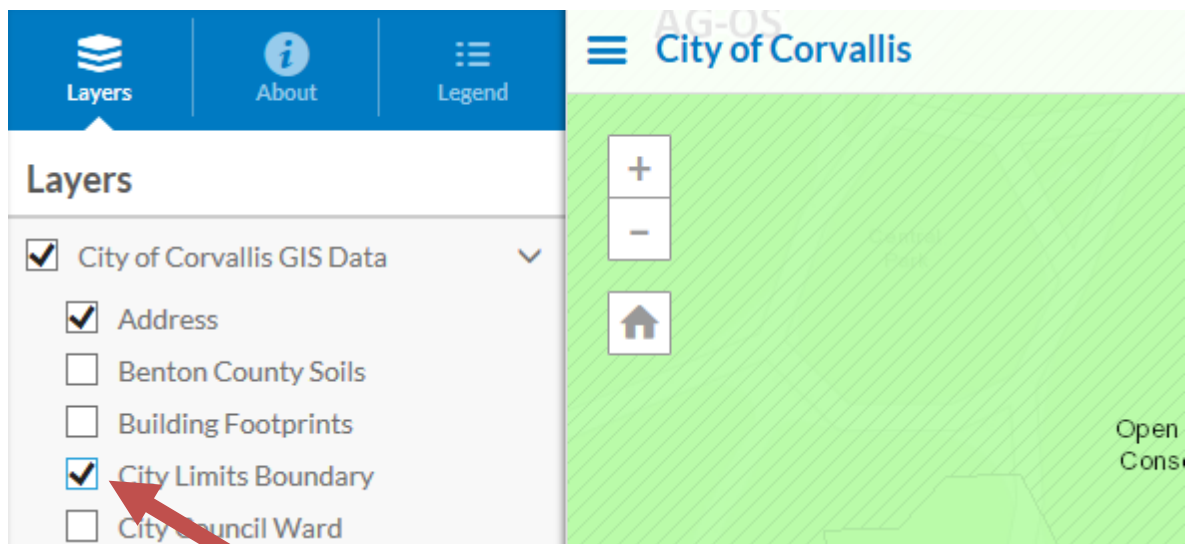

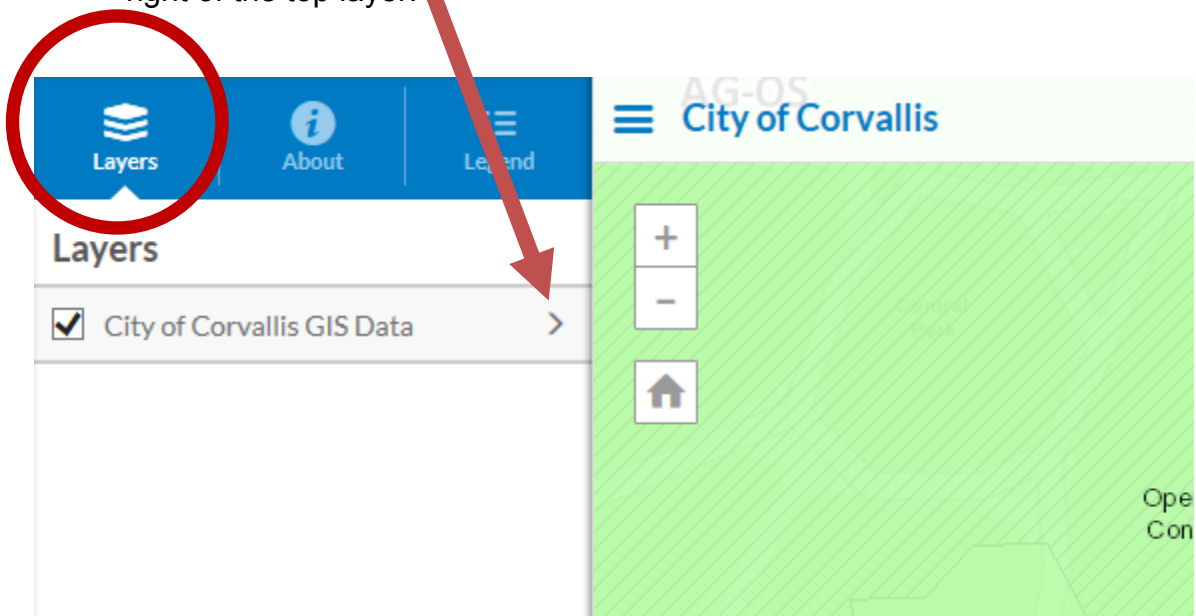

Enter a valid street address or other search criteria. Then press enter on your keyboard or click the magnifying glass search icon.

Click arrow and choose search type (address, parcel or historic district)

(ex. 501 SW Madison Av

Imagery

Print

2. If the search criteria are valid, the map will zoom to your area of interest, and display with a pop up window like this:

Search result

501 SW MADISON AVE

Zoom to

Turn on or off Layers of Information :

1. Click on the "Layers" icon in the top left corner to display a list of City of Corvallis GIS Data.

   The list of layers may be collapsed. Expand the list by clicking on the arrow to the right of the top layer.

Place a check in the box for each layer you want to display. Certain commonly used layers are turned on by default.

Identify Layer Details

1. Click anywhere on the map with your mouse pointer to reveal details about each layer of information. The bold text at the top identifies the applicable layer. The non-bold text below identifies additional information about the layer at that geographic location.

   The numbers in the top left corner of the box identify how many layers contain additional information at that particular location. Click the arrow to the right, to show the other layer information.

Click arrow to show other layer details.
